

10th Annual Greater Boston Area Statistical Mechanics Meeting

Saturday, October 18, 2008

Lemberg Lee Hall
Brandeis University

Sponsored by NES-APS and the Brandeis
MRSEC

Invited Speakers:

Mike Hagan, Brandeis University, "How viral capsids adapt to mismatched cargoes: Identifying Mechanisms of Morphology Control with simulations."

Eleni Katifori, Harvard University, "Collapse and Statistical Mechanics of pressurized rings in two dimensions."

Pedro Reis, MIT, "Anticracks: Localization of deformation in solid foams under compression."

Boris Svistunov, UMass Amherst, "Diagrammatic Monte Carlo"

We invite you to submit an abstract for a 3 minute contributed talk. More information is available at <http://physics.clarku.edu/gbasm/> where a Web-based registration form is available.
